Fifty Tippecanoe High School students enrolled in Mr. James Kitchen's homebuilding class took a field trip to the Construction Career Expo hosted by the Miami Valley Alliance of Construction Professionals. Students enjoyed talking with representatives from different companies in the Miami Valley about apprenticeship opportunities, on the job training, and the high demand for skilled employees in the construction trade. Mr. Kitchen was lucky enough to win the raffle for a \$500 prize that will be added to the THS homebuilding program!
